

MEMBERSHIP QUALIFICATION TEST
Saginaw Underwater Explorers, Inc.

This test shall be given by prior arrangement with one or more members of the club Safety Committee. The applicant shall bring scuba tank and regulator, weight belt, fins, mask and snorkle. Wet suits shall not be allowed for the test and the weight belt shall not be worn except during the doff and don exercise and buddy breathing. Generally speaking one member of the Safety Committee will guide one applicant through the test if man power is available. If group of applicants are being run through by one or two members of the Safety Committee, slow applicants shall not be allowed to cause the entire group to fail for lack of time.

TEST SEQUENCE

1. Demonstrate clearing mask and snorkle.
2. With fins, mask and snorkle only, swim 2/3 the length of the Saginaw High pool (50 ft.) underwater without surfacing.
3. With scuba tank and regulator, weight belt, mask, fins and snorkle; doff and don all equipment at the bottom of the pool. Remove all gear, surface, redive and don all properly. Safety Committee to watch all applicants to ascertain that air is expelled by the applicant upon ascending.
4. With scuba tank and regulator, weight belt, fins, mask and snorkle; buddy breath one length of pool.
5. With scuba tank and regulator, fins, mask and snorkle; turn off air and swim 125 yards (5 lengths). Remove all gear, including fins, and swim 75 yards (3 lengths) at once. Gear must be removed in the water before doing second phase of this requirement.
6. No equipment; tread water for 5 minutes.
7. No equipment; float for 5 minutes.
